ANAPHYLAXIS AND ALLERGIC REACTIONS

QUALITY AREA 2 | ELAA version 1.0

This policy was reviewed by Australasian Society of Clinical Immunology and Allergy,
Allergy & Anaphylaxis Australia Inc. For more information visit

https://www.nationalallergystrategy.org.au/

PURPOSE

This policy provides guidelines Waterfall Gully Pre School to:

- minimise the risk of an allergic reaction including anaphylaxis occurring while children are in the care of Waterfall Gully Pre School
- ensure that service staff respond appropriately to allergic reactions including anaphylaxis by following the child's ASCIA Action Plan for Anaphylaxis and ASCIA Action Plan for Allergic Reactions
- raise awareness of allergies and anaphylaxis and appropriate management amongst all at the service through education and policy implementation.
- working with parents/guardians of children with either an ASCIA Action Plan for Anaphylaxis or ASCIA Action Plan for Allergic Reactions in understanding risks and identifying and implementing appropriate risk minimisation strategies and communication plan to support the child and help keep them safe.

This policy should be read in conjunction with the Dealing with Medical Conditions Policy and Incident, Injury, Trauma and Illness Policy.

POLICY STATEMENT

VALUES

Waterfall Gully Pre School believes that the safety and wellbeing of children who have allergic reactions and/or are at risk of anaphylaxis is a whole-of-community responsibility, and is committed to:

- ensuring that every reasonable precaution is taken to protect children harm and from any hazard likely to cause injury
- providing a safe and healthy environment in which children at risk of anaphylaxis can participate fully in all aspects of the program
- raising awareness amongst families, staff, children and others attending the service about allergies and anaphylaxis
- actively involving the parents/guardians of each child at risk of anaphylaxis in assessing risks, and in developing appropriate risk minimisation and risk management strategies for their child
- ensuring all staff members and other adults at the service have adequate knowledge of allergies, anaphylaxis and emergency procedures
- facilitating communication to ensure the safety and wellbeing of children at risk of anaphylaxis.

SCOPE

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers [ECT], educators, staff, students, volunteers,

parents/guardians, children, and others attending the programs and activities of Waterfall Gully Pre School, including during offsite excursions and activities.

This policy will apply regardless of whether a child diagnosed by a registered medical practitioner as being at risk of anaphylaxis is enrolled at the service.

RESPONSIBILITIES	Approved provider and persons with management or control	Nominated supervisor and persons in day-to-day charge	Early childhood teacher, educators and all other staff	Parents/guardians	Contractors, volunteers and students
R indicates legislation requirement, and sho	ould not	be delete	:d		
Ensuring that an anaphylaxis policy, which meets legislative requirements (<i>Regulation 90</i>) and includes a risk minimisation plan (<i>refer to Attachment 3</i>) and communication plan, is developed and displayed at the service, and reviewed annually	R	V			
Providing approved anaphylaxis management training to staff as required under the <i>National Regulations</i>	R	√			
Ensuring that at least one ECT/educator with current approved anaphylaxis management training is in attendance and immediately available at all times the service is in operation (Regulations 136, 137)	R	V			
Ensuring that all ECT/educators approved first aid qualifications, anaphylaxis management training and emergency asthma management training are current, meet the requirements of the National Act (Section 169(4)) and National Regulations (Regulation 137), and are approved by ACECQA	R	V			
Ensuring ECT/educators and staff are aware of the procedures for first aid treatment for anaphylaxis (refer to Attachment 4)	R	√	√		
Ensuring all staff, parents/guardians, contractors, volunteers and students are provided with and have read the <i>Anaphylaxis Policy</i> and the Dealing with Medical Conditions Policy (Regulation 91)	R	V			
Ensuring that staff undertake ASCIA anaphylaxis refresher e- training practice administration of treatment for anaphylaxis using an adrenaline injector trainer twice a year, and that participation is documented on the staff record or in the staff meeting minutes	R	V			
Ensuring the details of approved anaphylaxis management training are included on the staff record, including details of training in the use of an adrenaline injectors (Regulations 145,146, 147)	R	V	V		

Ensuring that parents/guardians or a person authorised in the					
enrolment record provide written consent to the medical treatment or ambulance transportation of a child in the event of an emergency (Regulation 161), and that this authorisation is kept in the enrolment record for each child	R	V		√	
Ensuring that parents/guardians or a person authorised in the child's enrolment record provide written authorisation for excursions outside the service premises (Regulation 102) (refer to Excursions and Service Events Policy)	R	V	V	V	
Identifying children at risk of anaphylaxis during the enrolment process and informing staff	√	√	√		
In the case of a child having their first anaphylaxis whilst at the service, the general use adrenaline injector should be given to the child immediately, and an ambulance called. If the general use adrenaline injector is not available, staff will follow the ASCIA First Aid Plan (refer to Attachment 4) including calling an ambulance	V	V	V		V
Following appropriate reporting procedures set out in the <i>Incident, Injury, Trauma and Illness Policy</i> in the event that a child is ill or is involved in a medical emergency or an incident at the service that results in injury or trauma <i>(Regulation 87)</i>	R	V	V		V
In addition to the above, services where a child diagnosed as responsible for:	at risk of	anaphyla	axis is en	rolled, a	so
Displaying a notice prominently at the service stating that a child diagnosed as at risk of anaphylaxis is being cared for and/or educated by the service (Regulation 173(2)(f))	R	√			
Ensuring the enrolment checklist for children diagnosed as at risk of anaphylaxis (refer to Attachment 2) is completed	R	√			
Ensuring an ASCIA Action Plan for Anaphylaxis/ ASCIA Action Plan for Allergic Reactions completed by the child's doctor or nurse practitioner is provided by the parents are included in the child's individual anaphylaxis health care plan	R	V	V		
Ensuring risk management plan (refer to Attachment 3) and communications plan are developed for each child at the service who has been medically diagnosed as at risk of anaphylaxis, in consultation with that child's parents/guardians and with a registered medical practitioner (refer to Attachment 3) and is reviewed annually	R	√	1		
Ensuring individualised anaphylaxis care plans are reviewed when a child's allergies change or after exposure to a known allergen while attending the service or before any special activities (such as off-site activities) ensuring that information is up to date and correct, and any new procedures for the special activity are included	٧	1	V		√
Ensuring that all children diagnosed as at risk of anaphylaxis have details of their allergy, their ASCIA Action Plan for Anaphylaxis or ASCIA Action Plan for Allergic Reactions and their risk minimisation plan filed with their enrolment record that is easily accessible to all staff (Regulation 162)	R	V	V		

Ensuring an individualised anaphylaxis care plan is developed in consultation with the parents/guardians for each child (refer to Attachment 5)	V	√	√		
Compiling a list of children at risk of anaphylaxis and placing it in a secure but readily accessible location known to all staff. This should include the ASCIA Action and ASCIA Action Plan for Allergic Reactions Plan for anaphylaxis for each child	V	V	V		
Ensuring that all staff, including casual and relief staff, are aware of children diagnosed as at risk of anaphylaxis, their signs and symptoms, and the location of their adrenaline injector and ASCIA Action Plan for Anaphylaxis or ASCIA Action Plan for Allergic Reactions	R	V	V		V
Ensuring parents/guardians of all children at risk of anaphylaxis provide an unused, in-date adrenaline injector if prescribed at all times their child is attending the service. Where this is not provided, children will be unable to attend the service	V	V	V	V	V
Ensuring that the child's ASCIA Action Plan for anaphylaxis is specific to the brand of adrenaline injector prescribed by the child's medical or nurse practitioner	V	V	V		
Following the child's ASCIA Action Plan for Anaphylaxis or ASCIA Action Plan for Allergic Reactions in the event of an allergic reaction, which may progress to anaphylaxis		V	V		√
Following the ASCIA Action Plan/ASCIA First Aid Plan consistent with current national recommendations (refer to Attachment 4) and ensuring all staff are aware of the procedure	R	V	V		V
Ensuring that the adrenaline injector is stored in a location that is known to all staff, including casual and relief staff, is easily accessible to adults both indoors and outdoors (not locked away) but inaccessible to children, and away from direct sources of heat, sunlight and cold	R	V	V		V
Ensuring adequate provision and maintenance of adrenaline injector kits	R	V	V	V	√
Ensuring the expiry date of adrenaline injectors (prescribed and general use) are checked regularly (quarterly) and replaced when required	R	V	V		V
Ensuring that ECT/educators/staff who accompany children at risk of anaphylaxis outside the service carry a fully equipped adrenaline injector kit along with the ASCIA Action Plan for Anaphylaxis or ASCIA Action Plan for Allergic Reactions, for each child diagnosed as at risk of anaphylaxis (refer to Excursions and Service Events Policy)	R	V			
Ensuring that medication is administered in accordance with Regulations 95 and 96 (refer to Administration of Medication Policy and Dealing with Medical Conditions Policy)	R	V	V		V
Ensuring that emergency services and parents/guardians of a child are notified by phone as soon as is practicable if an adrenaline injector has been administered to a child in an anaphylaxis emergency without authorisation from a parent/guardian or authorised nominee (Regulation 94)	R	V	V		V

Ensuring that a medication record is kept that includes all details required by (Regulation 92(3) for each child to whom medication is to be administered	R	V	√	V
Ensuring that written notice is given to a parent/guardian as soon as is practicable if medication is administered to a child in the case of an emergency (Regulation 93 (2))	R	V	V	V
Ensuring that children at risk of anaphylaxis are not discriminated against in any way	R	√	√	√
Ensuring that children at risk of anaphylaxis can participate in all activities safely and to their full potential	R	√	√	√
Ensuring programmed activities and experiences take into consideration the individual needs of all children, including children diagnosed as at risk of anaphylaxis	R	V	V	V
Immediately communicating any concerns with parents/guardians regarding the management of children diagnosed as at risk of anaphylaxis attending the service	R	V	V	V
Responding to complaints and notifying Department of Education and Training, in writing and within 24 hours of any incident or complaint in which the health, safety or wellbeing of a child may have been at risk	R	V		
Displaying Ambulance Victoria's AV How to Call Card near all office telephones	√	√		
Complying with the risk minimisation strategies identified as appropriate and included in individual anaphylaxis health care plans and risk management plans, from Attachment 1	R	V		
Providing support (including counselling) for ECT/educators and staff who manage an anaphylaxis and for the child who experienced the anaphylaxis and any witnesses	V	V	V	V

RISK ASSESSMENT

The National Law and National Regulations do not require a service to maintain a stock of adrenaline injectors at the service premises to use in an emergency. However, ELAA recommends that the approved provider undertakes a risk assessment in consultation with the nominated supervisor and other educators, to inform a decision on whether the service should carry its own supply of these devices. This decision will also be informed by considerations such as distance to the nearest medical facility and response times required for ambulance services to reach the service premises etc.

If the approved provider decides that the service should maintain its own supply of adrenaline autoinjectors, it is the responsibility of the approved provider to ensure that:

- adequate stock of the adrenaline autoinjector is on hand, and that it is unused and in date
- appropriate procedures are in place to define the specific circumstances under which the device supplied by the service will be used
- the autoinjector is administered in accordance with the written instructions provided on it and with the generic ASCIA action plan for anaphylaxis
- the service follows the procedures outlined in the Administration of Medication Policy, which
 explains the steps to follow when medication is administered to a child in an emergency
- parents/guardians are informed that the service maintains a supply of adrenaline autoinjectors, of the brand that the service carries and of the procedures for the use of these devices in an emergency

BACKGROUND AND LEGISLATION

BACKGROUND

Anaphylaxis is a severe and life-threatening allergic reaction. Allergies, particularly food allergies are common in children. The most common causes of allergic reaction in young children are foods, bee or other insect stings, and some medications. A reaction can develop within minutes of exposure to the allergen and young children may not be able to identify or communicate the symptoms of anaphylaxis. With planning and training, many reactions can be prevented, however when a reaction occurs, good planning, training and communication can ensure the reaction is treated effectively by using an adrenaline injector (EpiPen® or Anapen®).

In any service that is open to the general community, it is not possible to achieve a completely allergen-free environment. A range of procedures and risk minimisation strategies, including strategies to minimise exposure to known allergens, can reduce the risk of allergic reactions including anaphylaxis.

Legislation that governs the operation of approved children's services is based on the health, safety and welfare of children, and requires that children are protected from hazards and harm. The approved provider will ensure that there is at least one educator on duty at all times who has current approved anaphylaxis management training in accordance with the *Education and Care Services National Regulations 2011* (Regulation 136(1) (b)). As a demonstration of duty of care and best practice, ELAA recommends all educators have current approved anaphylaxis management training (refer to Definitions).

Approved anaphylaxis management training is listed on the ACECQA website (*refer to Sources*). This includes ASCIA anaphylaxis e-training for Australasian children's education and care services, which is an accessible, evidence-based, best practice course that is available free of charge. The ASCIA course is National Quality Framework (NQF) approved by ACECQA for educators working in ECEC services.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010: Sections 167, 169
- Education and Care Services National Regulations 2011: Regulations 90–96, 102, 136, 137, 146, 147, 160–162, 168(2)(d), 173, 177, 181, 183, 184.
- Health Records Act 2001 (Vic)
- National Quality Standard, Quality Area 2: Children's Health and Safety
- Occupational Health and Safety Act 2004 (Vic)
- Occupational Health and Safety Regulations 2017
- Privacy and Data Protection Act 2014 (Vic)
- Privacy Act 1988 (Cth)
- Public Health and Wellbeing Act 2008 (Vic)
- Public Health and Wellbeing Regulations 2009 (Vic)

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- selectively audit enrolment checklists (for example, annually) to ensure that documentation is current and complete
- regularly seek feedback from everyone affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this
 policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle or following an anaphylactic episode at the service, or as otherwise required
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (*Regulation 172 (2)*).
